

ModelSnapshot

```
classDiagram
    class ModelSnapshot
    class FinementDbContext["Finement.Infrastructure.Migrations.FinementDbContext"]
    FinementDbContext --|> ModelSnapshot
```

The diagram illustrates a class hierarchy. At the top is a class box for 'ModelSnapshot' with two empty compartments. Below it is a class box for 'Finement.Infrastructure.Migrations.FinementDbContext' with three compartments. A blue arrow with an open triangle head points from the top of the 'FinementDbContext' box to the bottom of the 'ModelSnapshot' box, indicating that 'FinementDbContext' inherits from 'ModelSnapshot'.

Finement.Infrastructure.
